of

RARE COINS

To Be Sold by Mail Auction
to the Highest Bidder Without Reserve

Tuesday, March 19th, 1929

by

M. H. BOLENDER,
Orangeville, Illinois

To Collectors—In this sale, my 48th, I offer the old collection of Mr. P. D. Peterson of Eau Claire, Wis.., as well as several other splendid consignments and small collections. Most of the coins in the Peterson collection were purchased and collected over twenty years ago, and are very desirable specimens. Mr. Peterson was a diligent and systematic collector. He was mostly interested in Scandinavian coins and those of the United States. He still has a fine collection of relics and antiques, which also is for sale.

In this sale you will find offerings that seldom appear. Therefore buy them now while opportunity presents itself. Make your bids liberal and I will do my utmost best for you. I think of the buyer's purse as well as the seller's. Do not overlook the following: Early gold half eagles, 1824 quarter eagle, 1836 dollar, Bryan money, Swedish Plate Money, C.S.A. half dollar of 1861, Widow's mites, Coin Holders, Old documents, Foreign crowns and double crowns, U. S. Commemorative coins, Canadian coins, Hard Times tokens, Paper Money, Rare foreign copper, Fine Ancient coins, extensive series of United States coins, etc., etc.

Read Every Word in This Catalog or you are very apt to miss just what you want.

Keep on my mailing list by sending bids, or if you find nothing to bid on, request next list simply by a postal card. You will find a great variety of numismatic material in this sale, some choice and rare items, and will be well paid for giving the contents of this sales list your careful perusal.

The usual charge of 5% will be made for executing your bids, and for packing and sending out material. No charge made on anything not actually purchased. This fee is very low for the superior service I expect to give you.

Collectors of experience find that not all dealers classify coins alike.

My classifications and descriptions are based on knowledge gained through 15 years of earnest dealing in coins. I have endeavored to refrain from over-rating the quality of a lot, which is so common. I believe that the word "RARE" should not be over-worked.

Please remember my strong guarantee. If goods are not satisfactory (you are to be the judge), you are at liberty to return them without any danger of offending.

New bidders should send references or a deposit of at least 25 per cent of bids.

Coins will be bought as much below your bids as possible, as this is competitive bidding carried out in good faith.

If you do not know how much to bid on any item, write me and I shall be glad to inform you as to its value.

Receipted bills are not sent after your remittance as this is unnecessary. Your check, draft, or money order itelf is a receipt and we ask you to pay only once. However, if a 2-cent stamp is enclosed we will send receipt.

CONDITION OF COINS

The classifying of coins is an intricate and sometimes nerve-testing effort. Even expert numismatists are disagreed on various points. In my auction sales, it is my earnest purpose to give both buyer and seller a square deal. It is quite natural and common for an owner to overrate the condition of his own coins, sometimes without realizing it. But when a dealer sells a coin to a customer, he should place himself in the customer's place and abide by the golden rule. I want to have my customers get what they expect, and try to represent everything fairly. Therefore, I have adopted the following definitions of conditions of coins, this feature being of the very highest importance in collecting. Please make your bids according. And remember, that even in my auction sales **I guarantee absolute satisfaction in every way or your money will be**

cheerfully refunded as well as any postage you have expended in returning lots.

A coin in **proof** condition is one of that class which is prepared in the mint particularly for numismatic purposes. This is the highest state of condition imaginable and a coin in this condition has its maximum value. The planchet (bare piece of metal before struck) and dies are polished before the coin is struck (made) and this gives a burnished, mirror-like, reflective surface. **Never try to polish a coin.** The only time this could be done, is before it was made.

A coin in **uncirculated** condition is one that is in just the same state or condition as when delivered from the mint. It must not be tarnished or blackened, but must have a splendid general appearance. The coin must be entirely desirable. Luster is usually abundant.

A coin in **fine** condition is one which shows to the naked eye no signs of wear. They may have become tarnished or blackened, but seldom are. As a matter of fact, a coin may have experienced considerable traveling and yet be classified as fine if it has been luckily in good hands.

A coin in **good** condition must show every feature very plain. Coins with part of the legend worn smooth are not good specimens.

A coin in **fair** condition is a piece which has been very considerably in use, but upon which the most of the lettering, design, and date is clearly readable. Moreover, the coin must be free from mutilation. If the surface of the piece has been worn down so smoothly that the design, legends, and date are not plain, or if there is a hole in it, or if it has been bent or is corroded or otherwise damaged, then such a coin cannot be classed as fair, as it is not as valuable.

J. W. Scott once said, "No two stamps if examined critically are exactly alike." I can say the same thing of coins. Therefore, it is necessary to use intermediate conditions as follows:

Extremely fine—with not enough, original mint luster to be classed as uncirculated.

Very fine—Fine, extra strong, well-struck, and desirable in general appearances.

Very good—Everything very plain and showing very little wear on any part. Just the highest parts of the coin are affected.

Very fair—Everything legible, but general appearance not worthy of the classification "good."

Other terms speak for themselves. Among these are poor, very poor, **holed, scratched, bent, nicked, mutilated, polished, cleaned, tarnished, corroded, eroded, dented, rubbed, etc.** These terms have the same meaning in relation to coins that they have in other usage. See Webster's Dictionary.

It is nearly impossible to improve the numismatic condition of a coin by any method, except in very rare cases, and then only at the hands of an expert. By this I mean that if a piece is worn or scratched, it can not be remedied by polishing. On the contrary, its condition may be lowered in degree.

WHAT OTHERS HAVE TO SAY

On file in my office are one thousand signed testimonials, all unsolicited; these may be inspected by visitors. Here are a few that were just recently received:

"As usual I find the coins as represented in the catalog as to condition which is worth considerable to bidders." From Pennsylvania.

Let me sell your collection or duplicates in these sales. Quick returns and satisfactory results are realized. My sales are held regularly each month. Write for terms.

PLEASE BID BY THE PIECE UNLESS STATED TO BID FOR THE LOT. Thus if there are 12 pieces in a lot and you wish to pay $6.00 for the lot, then bid 50 cents. At each sale someone bids by the lot. Don't do this; bid by the piece.

MUSEUM COLLECTION OF RELICS AND ANTIQUES FOR SALE

Anyone interested in purchasing a fine collection of relics and antiques might do well to communicate with me.

ERRATA (Last Sale)

On page 27 in my February sale, the second 1799 dollar Haseltine 5 was listed at $65.00. This was a printer's error, and it should have been $6.00. Customers should make allowance for a few such errors.

DISCOVERY OF MORE ANCIENT GOLD

On the thirtieth of last January a workingman in Rome uncovered 378 pieces of ancient gold coins of the period of Emperors Claudius, Galba, and Trajan. He sold them to the State for $800. They will be added to the Capitolium Museum, and are regarded as a rare find. They have been estimated to be worth $25,000, but this figure is perhaps high.

SELL YOUR DUPLICATES

Those duplicates in your collection are doing you no good. Send them in to be sold in my next sale now in preparation. Then invest the proceeds in something you want. That is the way several prominent collectors are improving their collections with joy.

Quick returns and satisfactory results are realized as I hold sales regularly each month. Write for terms. Member of American Numismatic Association.
